

INNO-V8 GUIDED INNOVATION FUND

INNO-V8 is a mentorship and innovation fund program launched by the 1995-1999 alumni batch of University College of Engineering Kakinada. Our mission is to support and empower current engineering students to develop their innovative ideas into prototypes and beyond

Our Vision

- Empower University College of Engineering Kakinada students to innovate and excel in their chosen fields
- Encourage women engineers to pursue non-IT careers
- Aim to guide non-IT engineering students towards impactful careers in their respective fields
- Foster IT innovation as well
- Establish University College of Engineering Kakinada as a hotbed of creativity and innovation

Key Features

- Advisory panels of experienced alumni
- Funding for innovative projects up to Rs. 2 Lakhs
- Opportunities for students to work with faculty members and industry experts
- Encouragement for women engineers to pursue non-IT careers

Eligibility

- University College of Engineering Kakinada 2nd year and 3rd year students
- Students from all engineering majors are eligible to apply
- Both individual and team proposals are eligible for submission

How To Apply

- Submit project proposals by February 10th 2025
- Use the website or the QR code at the bottom for proposal submission
- Alumni panel will review and select the projects for funding

Join the Movement

Be part of the INNO-V8 program and help shape the future of innovation at University College of Engineering Kakinada. Apply now and take the first step towards turning your ideas into reality! Take your 1st step to become an Innovator: Scan the QR code and submit your Idea/Proposal
